## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. A saw with a switch electrically connected to a motor;
- II. A saw with a pump removably disposed on a base;
- III. A saw with one of the frame assembly and the supporting assembly having a first and second post, and the other of the frame assembly and the support assembly having a first and second hole;
- IV. A saw with an electrical outlet disposed on a support assembly;
- V. A saw with a table that has at least one insert that is cuttable by a cutting wheel;
- VI. A saw with a table that has an element movably attached to the table for indicating a cutting path of a cutting wheel;
- VII. A saw with a table that has an insert with first and second substantially vertical walls;
- VIII. A saw with a table that has a groove;
- IX. A saw with a pan attached to a table;
- X. A saw with a saw assembly being pivotable about a horizontal axis;
- XI. A saw having a saw assembly being pivotable about a bevel axis;
- XII. A saw with a rotatable guard;

Art Unit: 3724

XIII. A saw with a second rail disposed adjacent a first rail and a first roller assembly connected to the table;

XIV. A saw with a fluid delivery system having a first pivotable nozzle with a hole;

XV. A saw with a guard and a fluid delivery system having a first flexible nozzle;

XVI. A saw with a guard and a fluid delivery system assembly with a ribbed nozzle;

XVII. A saw with a guard having a least one rib;

XVIII. A saw with a motor housing having an inlet, a labyrinth path, and a filter;

XIX. A saw with a guard having a flexible flap and at least one rib;

XX. A saw with a fence assembly,

2. If Group V is elected, election of one of following patentably distinct species is further required:

I. FIG 5A;

II. FIG 5B;

III. FIG 5C; and

IV. FIG 5D.

3. If Group IX is elected, election of one of following patentably distinct species is further required:

I. FIG 10; and

II. FIG 11.

4. If Group XIII is elected, election of one of following patentably distinct species is further required:

I. FIGS 6A-C, 7A-B; and

II. FIG 8.

5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

6. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

7. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

8. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 3724

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

9. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

10. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
